INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Members of Marin Emergency Radio Authority

We have audited the accompanying financial statements of the Marin Emergency Radio Authority as of and for the year ended June 30, 2007, as listed in the table of contents. These financial statements are the responsibility of the management of the Authority. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted the audit in accordance with auditing standards generally accepted in the United States of America and the California State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Marin Emergency Radio Authority as of June 30, 2007, and the results of its operations for the year then ended, in conformity with accounting principles generally accepted in the United States of America as well as accounting systems prescribed by the State Controller's Office and state regulations governing special districts.

The management's discussion and analysis on pages 2 through 4 and required supplemental information on pages 18 and 19 are not a required part of the basic financial statements, but are supplementary information required by accounting principles generally accepted in the United States of America. We applied limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The other supplemental information presented on page 20 is presented for purposes of additional analysis and is not a required part of the basic financial statements. It has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The Management's Discussion and Analysis provides an overview of the Marin Emergency Radio Authority (MERA) financial activities for the fiscal year ended June 30, 2007. Please read it along with the Authority's financial statements, which begin on page 5.

FINANCIAL HIGHLIGHTS

The Authority's net assets increased by \$228,751. Total operating revenues increased by \$377,917 and total operating expenses increased by \$322,891.

A budgetary comparison schedule is included in the required supplemental information section. That schedule indicates we had a positive variance of \$1,016,983 when comparing actual activity with budgeted.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to MERA's basic financial statements. MERA's basic financial statements comprise two components: (1) government-wide financial statements and (2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

The government-wide financial statements are designed to provide readers with a broad overview of MERA's finances, similar to a private-sector business.

The statement of net assets presents information on all of MERA's assets and liabilities, with the difference between assets and liabilities reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of MERA is improving or deteriorating.

The statement of activities presents information showing how MERA's net assets changed during the fiscal year. All changes in net assets are recognized at the date the underlying event that gives rise to the change occurs, regardless of the timing of the related cash flows.

Management of MERA is a single-purpose entity that has elected to account for its activity as a proprietary fund type under governmental accounting standards. Accordingly, MERA presents only government-wide financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Changes in the MERA's net assets were as follows:

			Increase
	2007	2006	(decrease)
Current assets	\$ 2,781,031	\$ 1,958,024	\$ 823,007
Capital assets	25,795,328	26,136,568	(341,240)
Restricted assets	2,133,213	2,133,213	-
Other assets	245,196	260,321	(15,125)
Total assets	30,954,768	30,488,126	466,642
Current liabilities	1,666,213	2,524,268	(858,055)
Long-term debt	23,482,652	22,386,706	1,095,946
Total liabilities	25,148,865	24,910,974	237,891
Net assets:			
Invested in capital assets, net of debt	3,542,261	4,282,608	(740,347)

Total net assets	\$ 5,805,903	\$ 5,577,152	\$ 228,751

Current assets increased partly because proceeds from a new loan from Citizens Business Bank were not entirely expended during the year. Depreciation of capital assets more than offset the cost of additions to the radio system, resulting in a reduction of capital assets (net of depreciation).

Changes in MERA's revenues and expenses were as follows:

	2007	2006	(decrease)
Operating revenues:			
Member operating payments	\$1,499,300	\$1,118,900	\$ 380,400
Other		2,483	(2,483)

Increase (decrease) in net assets	\$ 228,751	\$ (550,556)	\$ 779,307

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

Member operating and service payments increased based on our budget that was approved at the beginning of the year. We received reimbursements from the County of Marin and certain subtenants for the improvements at the Bolinas and Bodega Bay sites.

CAPITAL ASSET AND DEBT ADMINISTRATION

During the fiscal year, the Authority invested \$1,558,281 in communication systems and other equipment. As scheduled, MERA paid bond principal of \$1,000,000 and approximately \$1,028,000 of bond interest. MERA also borrowed \$2,250,000 to provide financing for the final costs of building the radio system.

THE FUTURE OF THE AUTHORITY

The Marin Emergency Radio Authority completed construction of all it's transmit/receive sites and became fully operational in December 2006. During FY06-07, the Authority also transferred responsibility for MERA's day to day operations, including system repairs, maintenance and user technical training to the Marin County Department of Public Works. The Authority is pursuing grant funding for future system interoperability with other Bay Area organizations.

REQUESTS FOR INFORMATION

This financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the Authority's finances and to demonstrate MERA's accountability for the funds under its stewardship.

Please address any questions about this report or requests for additional financial information to 371 Bel Marin Keys Boulevard, Suite 100, Novato, CA 94949.

Respectively submitted,

Michael Garvey
Interim Executive Officer

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The Marin Emergency Radio Authority (MERA) is a joint powers authority created on February 28, 1998 by and among the County of Marin and certain public agencies within the County (collectively, the "Members"). MERA was formed to plan, finance, implement, manage, own and operate a multi-jurisdictional and countywide public safety and emergency radio system. This radio system will be used by member agencies in the law enforcement, fire management, emergency medical, road maintenance, transit, public works, local government and other county-based entities in Marin County. MERA is governed by a Board of Directors comprised of one appointed official from each participating member

INTRODUCTION

MERA's financial statements are prepared in accordance with generally accepted accounting principals (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations.). Government proprietary funds (such as MERA) are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989 (when applicable) that do not conflict with or contradict GASB pronouncements.

BASIS OF ACCOUNTING

The Authority's operations are accounted for as a governmental enterprise fund. GAAP requires that enterprise funds use the accrual basis of accounting – similar to business enterprises. Accordingly, revenues are recognized when they are earned and expenses are recognized at the time liabilities are incurred.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

BASIS OF ACCOUNTING (continued)

The Authority distinguishes between operating and nonoperating activities. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an entities principal ongoing operation. The principal operating revenues of the Authority are budgeted member payments. Operating expenses include the cost of services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition, including member contributions made to service debt (service payments), are reported as non-operating revenues and expenses.

FINANCIAL STATEMENT AMOUNTS

CASH AND CASH EQUIVALENTS:

For purpose of the statement of cash flows, MERA has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with fiscal agent (County of Marin).

Investments:

Investments with fiscal agents are stated at fair value. These investments consist of cash and cash equivalents administered by the Bank of New York held in connection with the Marin Emergency Radio Authority 1999 Revenue Bonds (see Note 4).

Capital Assets:

MERA capitalized all costs directly associated with the acquisition, development and construction of the public safety and emergency radio system (the "Project"). Costs include the backbone system, user equipment, fire station alerting equipment, improvements to communications centers and construction-period interest and other project development costs. Depreciation is computed on the straight-line basis over an estimated useful life of twenty years.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

FINANCIAL STATEMENT AMOUNTS (continued)

Member payments:

Each member agrees to pay the cost of financing the acquisition of certain public safety radio equipment ("Service Payments") and the cost of annual operations ("Operating Payments") in an amount determined by the MERA Board for each operating period. All service payments have been assigned by MERA to the trustee in trust; pursuant to its bond indenture (see Note 4).

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2. CASH AND INVESTMENTS

MERA maintains most of its cash in the County of Marin pooled investment fund for the purpose of increasing interest earnings through pooled investment activities. Interest earned on the investment pool is allocated quarterly to the participating funds using the daily cash balance of each fund. This pool, which is available for use by all funds, is displayed in the financial statements as "Cash."

The County Pool includes both voluntary and involuntary participation from external entities. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer.

The County's investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and by the County's investment policy. The objectives of the policy are in order of priority, safety, liquidity, yield, and public trust. The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the types of investments in the pool, maturity dates, par value, actual costs and fair value.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

2. CASH AND INVESTMENTS (continued)

Under MERA's investment policy, and in accordance with Section 53601 of the California Government Code, MERA may invest in the following:

- Securities of the U.S. government or its agencies
- Bankers acceptances
- · Commercial paper
- Medium term corporate notes
- California Local Agency Investment Fund ("LAIF")
- Passbook savings account demand deposits
- Guaranteed investment contracts
- Mutual funds
- Repurchase agreements (not to exceed 30 days)
- Collateralized mortgage obligations

INTEREST RATE RISK

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Duration is a measure of the price sensitivity of a fixed income portfolio to changes in interest rates. It is calculated as the weighted average time to receive a bond's coupon and principal payments. The longer the duration of a portfolio, the greater its price sensitivity to changes in interest rates. MERA has not adopted a policy to manage interest rate risk.

In accordance with its investment policy, the County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment pool to 540 days, or 1.5 years. At June 30, 2007, the County's investment pool had a weighted average maturity of 238 days.

For purposes of computing weighted average maturity, the maturity date of variable rate notes is the length of time until the next reset date rather than the stated maturity date.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

2. CASH AND INVESTMENTS (continued)

CREDIT RISK

State law and the County's Investment Policy limits investments in commercial paper, corporate bonds, and medium term notes to the rating of "A" or higher as provided by Moody's Investors Service or Standard & Poor's Corporation. The County's Investment Policy limits investments purchased by Financial Institution Investment Accounts, a type of mutual fund, to United States Treasury and Agency obligations with a credit quality rating of "AAA." MERA's only non-cash investment is a Guaranteed Investment Contract agreement with MBIA Management Investment Corp. in the amount of \$2,133,212. The contract is rated Triple-A by Moody's Investors Service and Standard & Poor's Ratings Service.

CONCENTRATION OF CREDIT RISK

This is the risk of loss attributed to the concentration of MERA's investment in a single issuer. As previously mentioned, all MERA's investments are concentrated in a Guaranteed Investment Contract with MBIA.

The following is a summary of the concentration of credit risk by investment type as a percentage of each pool's fair value at June 30, 2007.

	Percent of Portfolio
Investments in Investment Pool	
U.S. Agency	53%
U.S. Treasury	22%
Local Agency Investment Fund	5%
Money market funds	3%
Certificates of deposits	10%
Commercial paper	7%
	100%

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

2. CASH AND INVESTMENTS (continued)

CUSTODIAL CREDIT RISK

Custodial credit risk for deposits is the risk that in the event of a financial institution's failure, MERA would not be able to recover its deposits. Deposits are exposed to custodial credit risk if they are not insured or not collateralized. MERA's deposits are not exposed to custodial credit risk as its deposits are eligible for and covered by "pass-through insurance" in accordance with applicable law and FDIC rules and regulations.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, MERA would not be able to recover the value of the investment or collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in MERA's name, and held by the counterparty. MERA's investment securities are not exposed to custodial credit risk because all securities are held by MERA's custodial bank in MERA's name.

LOCAL AGENCY INVESTMENT FUND

The County Treasurer's Pool maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company, but is required to invest according to California State Code. Participants in the pool include voluntary and involuntary participants, such as special districts and school districts for which there are legal provisions regarding their investments. The Local Investment Advisor Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State statue.

4. BONDS PAYABLE (continued)

The Marin Emergency Radio Authority 1999 Revenue Bonds (Bonds) were issued for the purpose of providing funds to finance the acquisition public safety radio equipment. Bonds in the principal amount of \$26,940,000 were issued in February 1999 by MERA. The Bonds provide for annual interest ranging from 3.45% to 5.01%. Principal payments are payable annually on August 15th. Interest payments are payable semiannually on August 15 and February 15. Bonds maturing after August 1, 2009 are subject to call on any interest payment date at par, plus a premium of 1% to 2% of the principal amount. The Bonds are special obligations of MERA and are secured by the Members' service payments (see Note 1).

Minimum future obligations for debt services are as follows:

6. RISK MANAGEMENT

MERA is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and errors and omissions. During the year, MERA purchased liability and property insurance as part of a group of municipalities. Coverage for general liability, errors and omissions and non-owned automobile was \$4,000,000 after a \$50,000 deductible. Property coverage was purchased for values of \$13,700,000, with automatic coverage of up to \$40,000,000 of additional property if added. A sublimit of \$1,000,000 applied to fire damage liability.

NOTES TO THE FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2007

7. COMMITMENTS AND CONTINGENCIES

At June 30, 2007, MERA has lease commitments for various site communication facilities. The leases have terms ranging from five to twenty years and provide for various rental payment requirements including some at little or no cost. Certain of the leases contain options to extend for additional five year periods. Certain lessors that are Members of MERA have waived any lease fees under their agreements. Rental expense was \$254,000 for 2007.

Future minimum lease payments under the leases are as follows:

Year ended June 30,		
2008	\$ 279,60	1
